Note:

In the case of the following screen is displayed on M1 Mac, click [Install] to install Rosetta.

In the case of the following warning is displayed, please check the internet connection on your Mac. Click [Done] and try again the installation from the beginning.

KAIROS Core (Main frame) and KAIROS Control (Control Panel) can be updated with KAIROS Creator (GUI software).

 Download the firmware file "*****.zip" file from PASS KAIROS member's portal site <u>https://panasonic.biz/sav/kairos_e/</u> and unzip it.
 KAIROS Core (Main frame) firmware file: DV91000496*.zip -> "kairos-core-***.tar"

KAIROS Control (Control Panel) firmware file: DV91000539*.zip -> "kairos-control-***.tar"

2. Launch KAIROS Creator (GUI Software) and select [Help] – [Server update]

3. Enter the IP address of KAIROS Core or KAIROS Control

You can check IP address of KAIROS Control on Panel [Setup] –[IP-Addr.] (Example below)

4. Click [Browse] and select the firmware

KAIROS Core (Main frame) firmware file: (Example:DV91000496*->) "kairos-core-***.tar"

KAIROS Control (Control Panel) firmware file: (Example:DV91000539*->) "kairos-control-***.tar"

5. Click [Update] and then [Yes].

6. The update time is as follows. During this time, be careful not to turn off the power. KAIROS Core: about 2-3 min. KAIROS Control: about 1 min.

* If you specify the wrong firmware, the following error will be displayed during the update. The update will be canceled and the previous state will be restored.

7. It will restart automatically when the update is complete. Click [Close] button. And then, please confirm the version.
