P2Network Setting tool

About this tool

This tool is designed to generate an encrypted file for the SD card to perform the Network setting of P2 equipment.

The information entered by the user is encrypted. Even if the configuration file is leaked to the outside, information is protected.

How to install

Download the file (P2NetworkSetting.zip) from the website and extract it in any folder in your PC.

The following files will appear in "P2NetworkSetting" folder.

- -P2netGen.exe
- -libeay32.dll
- -QtCore4.dll
- -QtGui4.dll
- -QtXml.dll

Click "P2netGen.exe" to start application software.

This software doesn't use the registry data of PC.

How to uninstall

Delete the "P2NetworkSetting" folder including all files in your PC.

How to use

This tool has file transfer setting tab (Transfer) and streaming setting tab (Streaming). Independent setting file will be created on each tab.

By clicking Export button and specifying the save location, the setting files will be stored in SD card's /private/meigroup/pavcn/sbg/p2sd/.

■Transfer

Setting file for file transfer "p2nwcon.cnf" will be created.

FTP or SSH setting can be created.

Select tab, enter required information, click Export button and specify SD card drive for output.

•FTP

The settings for performing FTP can be configured. The data created on this tab can be loaded into Menu by the camera's FTP Settings LOAD function.

P2 Network Setting Software Version 2.3.0						
				Add LU Option		
	Transfer	Streaming	P2Cast			
$\left[\right]$	FTP	SSH				
	LOGIN USER LOGIN PASS	MORD R URL		Save to SD Ca Please Select SDC E:/ OK	ard Card Drive Cancel	
				Export		

FTP setting items:

Item	Description	Additional information
LOGIN USER	Login user name	
LOGIN PASSWORD	Login password	
FTP SERVER URL	FTP server's name or address	PATH is accepted.

* Ask your network/server administrator for each item's setting.

•SSH

The settings for performing SSH (SFTP) can be configured. The data created on this tab can be loaded into Menu by the camera's FTP Settings LOAD function.

SSH setting items::
