#### <NOTE>

- To play back clips from P2 cards, the "P2 driver" must already be installed. Download this driver from the Panasonic website for installation.
- Depending on the status of the PC used, dropped frames, black screen/white screen appearance, and audio disruption may occur during playback of content.
- To use this software on Windows, QuickTime must already be installed. Download QuickTime from the Apple Inc. website for installation. Operation of QuickTime version 7.7.4 has been verified.
- To use the software on Windows, set the screen resolution to the standard setting (96 dpi).
- On Windows, the P2 card assigned to drive A or B is not recognized.

So, do not use drive A or B as the assignment destination of the P2 card.

• Using on multi display mode is not guaranteed.
