NDI | HX Apps Camera settings: NDI Device registration procedure

If the NDI|HX compatible PTZ camera is not detected as an NDI device on the application software, use NDI Access Manager and register the device.

Outline of Procedure

Add "External Sources" and enter the camera's IP address in "Device IP Address".

Screen shot (example)

(1) Start NDI Access Manager.
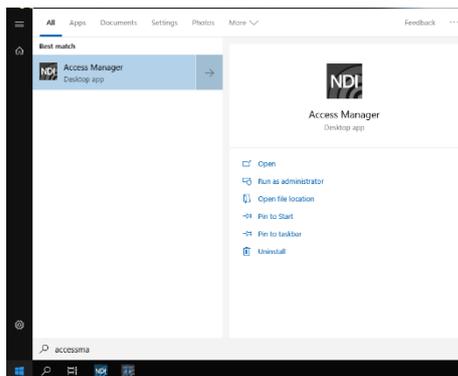

(2) Select "External Sources" tab and click "IP Address + ".
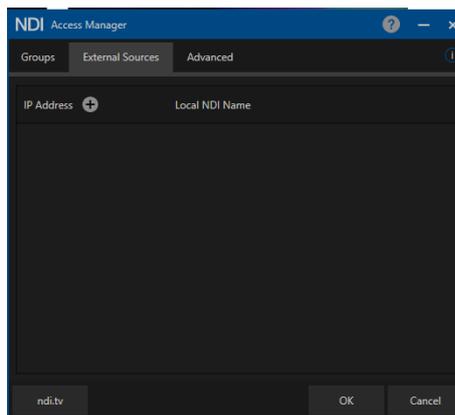

(3) On the pop-up screen, enter the camera IP address in "Device IP Address" and click [OK].
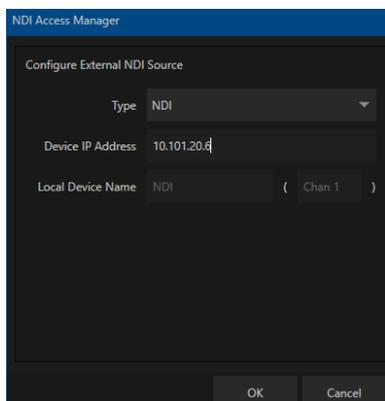

(4) Make sure that the device is registered.
