Step2. Register your P2 device in P2 Cast

Overview

1. Click “CONFIG”
2. Click “P2 Device”
3. Register nick name of your P2 device and input “NETWORK ID”
Please refer to camera setting manual for NETWORK ID confirmation.

1. Click “Config” after log-into P2 Cast

The screenshot displays the P2 Cast web interface. At the top, a navigation bar includes tabs for HOME, DEVICES, METADATA, PLAYLIST, SETTINGS, CONFIG, and STATUS. The CONFIG tab is highlighted with a red box, and a red arrow points to it from the text above. Below the navigation bar, there are three main sections: CREATED (with a calendar for April 2016), MEDIA ID (with a Refresh button), GROUP ID (with a Refresh button), and AUTHOR (with a Refresh button). The main content area is divided into three columns: Shot, METADATA, and Text Memo. The METADATA column contains a large video player area. The Text Memo column contains a list of fields: ClipName, GlobalClipID, UserClipName, Duration, Codec, StartTimecode, FrameRate, and DropFrame. At the bottom, there is a playback control bar with buttons for IN, OUT, and other controls. The status bar at the very bottom shows 'Total Shots : 0' and 'Dur 00:00:00:00 / 0 shots'.

Step2. Register your P2 device in P2 Cast (Continued)

2. Click "P2 device"

3. Click "ADD "

4. Select "Device type" as Panasonic P2 and click "NEXT "

Step2. Register your P2 device in P2 Cast (Continued)

5. Input “Nickname” and “Network ID” and 3.Click “ADD ”.

The screenshot shows a dark-themed web interface for registering a P2 device. The breadcrumb navigation at the top reads "P2 Devices > Nickname Registration > P2 Device Information". The main form area contains two input fields: "Nickname" and "Network ID", both with red asterisks indicating they are required. A red box highlights these two fields. To the right of the form are three buttons: "Cancel", "Back", and "Add". The "Add" button is highlighted with a red box, and a red arrow points from the text "Click 'ADD'" in the instruction above to this button.

*Please confirm the camera setting manual for how to check Network ID.

6. Your P2 device will be added .

Model number and serial number will be added once your P2 device is connected to P2 Cast.

The screenshot shows the "P2 Devices" section of the P2 Cast interface. The breadcrumb navigation is "Users > P2 Devices > Company". Below the navigation are tabs for "Registered Devices", "Files", and "Export List". There are also buttons for "IDs", "Groups", "SearchTarget", "Nickname" (with a dropdown arrow), "Search", "Add", "Actions", and "Refresh". The main content is a table with the following columns: Nickname, Model, Serial No., Network ID, Online, and Firmware. One device is listed with the nickname "AJ-PX270 JAPAN" and model "AJ-PX270". The "Online" status is indicated by a white dot.

Nickname	Model	Serial No.	Network ID	Online	Firmware
AJ-PX270 JAPAN	AJ-PX270			●	

Step3. Download user profile

Overview

1. Click "CONFIG"
2. Click one of the user (highlighted in red if selected) and then click "Actions"
3. Select "Download profile and input the log-in password for P2 Cast.
Download will start automatically.

1. Click "Config" after log-into P2 Cast

The screenshot displays the P2Cast web interface. At the top, a navigation bar includes tabs for HOME, DEVICES, METADATA, PLAYLIST, SETTINGS, CONFIG, and STATUS. The CONFIG tab is highlighted with a red box, and a red arrow points to it from the text above. Below the navigation bar, there are three main sections: CREATED (with a calendar for April 2016), MEDIA ID, GROUP ID, and AUTHOR, each with a Refresh button. The main content area is divided into Shot, METADATA, and Text Memo sections. The METADATA section shows fields for ClipName, GlobalClipID, UserClipName, Duration, Codec, StartTimecode, FrameRate, and DropFrame. At the bottom, there are playback controls, a status bar showing 'Dur 00:00:00:00 / 0 shots', and a footer with 'Total Shots : 0', Search, Refresh, and Actions buttons.

Step3. Download user profile (continued)

2. Click “User Admin” or other user account (highlighted in red if selected) and Click “Actions”

3. Click “Download profile”

4. Input the log-in password for P2 Cast and click “Downlaod”. Download will start automatically.

Step3. Download user profile (continued)

5. Download status bar appears on the bottom. Click “open folder” and then unzip “p2nwcon .zip” file

If the web browser Google Chrome setting is as default, “p2nwcon” zip is stored in the “download” folder under ¥Users¥<username>¥Downloads.

6. After unzip, private folder will appear where you designated.

Folder structure:
private¥meigroup¥pavcn¥sbg¥p2sd

Step4. Copy the "Private" folder to SD memory card

Overview

1. Unzip "p2nwcon.zip" which contains user profile.

(If the web browser Google Chrome setting is as default, "p2nwcon" zip is stored in the "download" folder under %Users%<username>%Downloads.)

2. Format SD memory card in your P2 device. **Please do not format with PC.**

3. Copy the "Private" folder to SD memory card.

Step5. Insert SD memory card and reboot P2 device.

Overview

1. Insert SD memory card with user profile (private folder) to your P2 device.

As of Apr. 2016, following model is compatible with P2 Cast:

AJ-PX5000, AJ-PX800, AJ-PX380, AJ-PX270 and AJ-PG50 series.

2. After inserting it, please reboot your P2 device such that it can recognize your “user profile”.

1. Insert
