Combining PinP (Picture in Picture)

★ This is to explain the procedure for combining a sub screen image with the background image.

Background		PinP Signal		Output Image
	+		=	

(Procedure for selecting the PinP signal)

① Press PinP button – (Fig.1-A) to set the crosspoint buttons to PinP material selection mode (PinP button blinks).

② Using the B bus buttons, select the PinP signal. – (Fig.1-B)

③ Press PinP button to release the PinP material selection mode(PinP button goes off).

④ Press PinP ON button – (Fig.1-E) to combine the PinP image.
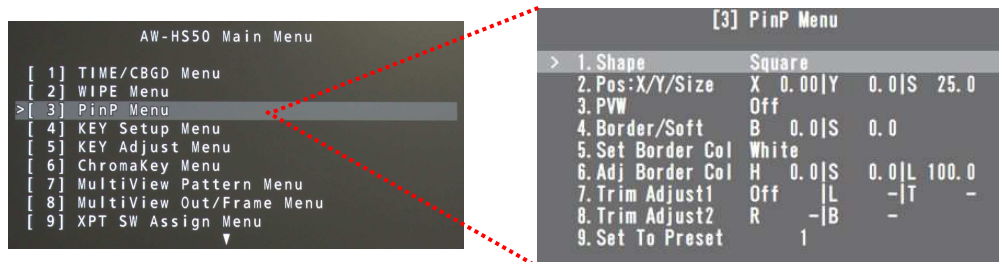

(Figure 1: AW-HS50 Control Panel)

(PinP settings)

Changing the shape, position and size of the PinP image to be combined is enabled as well as adding the border effect to it.

⑤ Hold down the OSD ON button – (Fig.1-C) for 2 seconds to open the menu. (To close it, hold down the button again for 2 seconds.)

⑥ Use the OSD/TIME dial – (Fig.1-D) to set or adjust the settings for the menu items in [3] PinP Menu. – (Fig.2 & Fig.3)

(Figure 2: AW-HS50 Menu Display Screen)

```
            [3] PinP Menu

>  1. Shape          Square
   2. Pos:X/Y/Size   X  0.00|Y    0.0|S  25.0
